

Ensuring that non-pay savings are optimised – and stay optimised

In a continually changing procurement landscape, ensuring that non-pay savings stay optimised requires expert supply market knowledge and ongoing spend intelligence.

ProIntell is a cloud-based service providing access to a suite of dashboards and reporting tools that deliver immediate insight into exactly how much you're spending, what you're spending it on, and which suppliers you're spending it with.

Our unique ProIntell Spend Intelligence Service offers NHS Trusts a smart way to monitor, review and benchmark non-pay spend in order to optimise costs and improve your financial position... on an ongoing basis.

Procura ProIntell Spend Intelligence

ProIntell leverages our supply market knowledge and procurement expertise to identify savings opportunities as they arise.

- **Data categorisation:** we take your spend data on a monthly basis, clean it, validate it and categorise it using NHS e-class
 - **Spend analysis:** view and analyse your non-pay spend data through our cloud-based business intelligence tool
 - **Benchmarking:** we benchmark key clinical and non-clinical products to identify immediate savings opportunities
 - **Dashboards and reporting:** easy access to pre-configured category, supplier and contract focused reports designed to meet NHS Trust reporting requirements
 - **Expert review, analysis & recommendations:** quarterly spend reviews with clear recommendations from our consultants on where and how to make savings
 - **Monthly subscription-based service:** no capital investment, set-up costs or IT installation
- Understand and address all categories of your non-pay spend
 - Capitalise on changing patterns of spend with a clear view of trends by category and supplier
 - Access deep, up-to-the-minute supply market intelligence across all categories; medical and non-medical, from orthopaedics to syringes, and telecoms to catering
 - Compare against other NHS Trusts and make immediate savings through accurate product price benchmarking
 - Rapidly identify new savings opportunities as soon as they appear
 - Benefit from specialist, independent evaluation and clear, actionable recommendations
 - Achieve high return on investment – savings always far outweigh costs

ProIntell is a service provided by Procura Consulting, specialists in procurement cost reduction.

We work closely with NHS Trusts to deliver savings in non-pay expenditure.

- Our team has achieved > £20m in savings
- Projects are self-funding - no risk for clients
- We work closely with your people to embed best practice

Identifying savings

We identify, evaluate and quantify opportunities for savings so that you know exactly where you can reduce costs and by how much.

Delivering savings

Our programmes have a rapid impact on your financial position and embed best practice. Our projects are self-funding - so no financial risk.

Maintaining savings

We regularly monitor, review and benchmark your cost base and reveal where non-pay costs could be reduced on an ongoing basis.
